

Pituitary Workshop MGH Neuroendocrine Unit

Massachusetts General Hospital
Boston, Massachusetts, USA

Course Directors: Anne Klibanski, MD and Beverly MK Biller, MD

The multidisciplinary partnership of endocrinologists, neurosurgeons, radiation oncologists, and neurologists, provides the Neuroendocrine Clinical Center at the Massachusetts General Hospital with depth of expertise that has produced a major international and national referral center for patients with pituitary and hypothalamic disorders. The Center physicians share their knowledge through advanced educational offerings.

In this didactic course, participants will be exposed to an integrated, multidisciplinary approach in treating patients with pituitary and hypothalamic conditions. Topics to be included in this 2 ½ - day course:

- Prolactin Disorders
- Hypopituitarism
- Pituitary Surgery
- Adrenal Disorder Case Studies
